Steel Fence and Gate Information

- Five unique styles
- Steel fence and gate are coated with a black, baked-on enamel.
- Mounting hardware, cuts, holes, and scrapes must be painted with rust resistant paint.
- Posts and accessories sold separately.
- 4" o.c. spindle spacing (6" available on Metalist and Embassy).
- Styles available to meet many codes.
- Fence panels are 4' or 6' wide up to 72" installed height.
- Matching gates available.

Building codes

Always check local building codes before starting an installation. Compliance with building codes is the installer's responsibility
